## WORK EXPERIENCE

University of Arkansas

Fayetteville, AR

Student Athlete (Men's Golf)

2021-2024

- Excelled in a top 10 Division 1 collegiate golf program.
- Demonstrated exceptional dedication, leadership, and teamwork both on and off the course.

University of Arkansas

Fayetteville, AR

Learning Assistant

September 2024 - current

- Tutored and worked with student-athletes to help them succeed academically.
- Demonstrated exceptional leadership and problem-solving ability.
- Worked on various projects, including an AI-centric program focusing on prompt literacy and how to leverage AI for students.

## PROJECTS

WordSmith Decentralized Application

Spring 2024

- WordSmith is a NFT marketplace, where you can create and sell your NFTs all inside the decentralized application. Chat-GPT is integrated into the application to generate the images based on a prompt.
- Created smart contracts using solidity.

Ninja Platformer Game (Python)

May 2024

- Created a video game using Python that involves platforming and attacking enemies.

AI Crafted Careers

Fall 2024

- Created a web application that utilized ChatGPT's API to generate changes to resumes and cover letters based on the desired job application.
- Coded the entire application in C#.
- Led an Agile SCRUM team as the Product Owner to a successful, completed project.
